

Digital Innovation Workshops

The **Open Digital Innovation Lab** is the place to bring your digital health and care challenges.

Powered by the Open Digital Approach, we **deliver your vision** with Open Source solutions built on **re-usable, proven technology** that reduces risk, costs and meets evolving needs.

With over 20 years of experience in professional software delivery, the **Open Digital Innovation Lab** has delivered both clinical and non-clinical innovation projects for NHS organisations:

- ▶ The Royal Marsden NHS Foundation Trust
- ▶ South London and Maudsley NHS Foundation Trust
- ▶ NHS Digital

Each project begins with an **Innovation Workshop** - an in-depth, two-way conversation between ourselves and your team.

We'll listen as we set out to understand your goals, requirements, and challenges, then provide our expert insight to discuss how we can take your concept to reality.

After the workshop you'll receive a written report detailing our findings and recommendations, together with a roadmap and **action plan for implementation**.

The best time to start is now, so **book your workshop today** - available direct from OpusVL or through G-Cloud and other frameworks.

Innovation Workshops

Choose from **three workshop packages**, each optimised to get the **results you need**.

Digital Innovation Workshop

For organisations with a specific digital health and care need for the Innovation Lab to bring to life

- ▶ Focused on a specific digital need
- ▶ Clinical or non-clinical domain
- ▶ Integration with the existing care environment and systems

£5,000 + VAT

Finance Innovation Workshop

For organisations looking to automate financial processes or integrate finance applications with external systems

- ▶ Focused on financial operations
- ▶ Integration with external systems or third-party organisations

£5,000 + VAT

How it works

Start with a free discovery call to discuss your idea

We will plan the workshop activities to get the most from the day

Face to face workshop with you and your team

You'll receive a written report which we will review with you

We produce a roadmap and action plan to bring your vision to life

“It was great working with OpusVL. We had a hands-on approach from all levels of the business, from the developers right through to the CEO. It was a highly personal service, advice was readily given, and our views heard.”

Stephen Docherty, former Chief Information Officer, South London and Maudsley NHS Foundation Trust

Digital Strategy Workshop

For organisations requiring creative, blue-sky thinking to explore and evolve their overall digital strategy

- ▶ Cross-functional analysis team with a broad scope, looking holistically at the wider digital vision for your organisation, business unit, or process
- ▶ Any systems, processes, and integrations in scope

£12,000 + VAT
